

# JICE Online Webinar Series 2026

**Plastics**, 8<sup>th</sup> of July 2026, 10 am – 12 pm

## Agenda

10:00 – 10:10 Welcome and Introduction

**Roberto Ferrante**, Head of Competence Centre, CDP  
Moderator: **Giacomo Salvatori**, Circular Economy Expert, CDP

10:10 – 10:20 **Plastics and Circularity Policy Context**  
EU policy perspective on circularity in plastics lifecycle

**Wolfgang Trunk**, Team Leader for plastics and packaging, European Commission DG Environment

10:20 – 10:30 **Overview of Current State of Circularity for Plastics**  
From EU targets to circular reality: how circularity for plastics can be delivered in practice

**Lars Mortensen**, Circular Economy Consumption and Production Expert, European Environment Agency

10:30 – 11:30 **From Design to Recovery: Lifecycle Stage Perspectives**  
Case study presentations with a spotlight on plastics circularity

**Design/manufacturing:**  
**Thor Tummers**, External affairs, Unilever

**Collection, Sorting, Mechanical recycling:**  
**Jan-Pedro Vis**, Director Circular Materials, Renewi  
**Melissa Kars**, Manager, Value Chain Plastics, PreZero

**Chemical Recycling:**  
**Rosario Letizia**, CFO, Versalis

# JICE Online Webinar Series 2026

**Plastics**, 8<sup>th</sup> of July 2026, 10 am – 12 pm

Agenda

---

11:35 – 11:55 Q&A

**Giacomo Salvatori**, Circular Economy Expert,  
CDP

---

11:55 – 12:00 Key Takeaways and Closing

**Giacomo Salvatori**, Circular Economy Expert,  
CDP

---

# JICE Online Webinar Series 2026

## Plastics, 8<sup>th</sup> of July 2026

Focus on finance, investment and gaps along the circular value chain

- Reconnaissance of the **state of the circular economy in the plastics sector**, highlighting emerging industrial models and key challenges across the life cycle.
- Discussion of **investment needs and persistent financing gaps** along the plastics value chain, from design and production to collection, mechanical and chemical recycling.
- Exchange on **public and private financing sources**, available financial instruments and the barriers that still hinder investment in scalable circular plastics projects.
- Presentation of **concrete case studies and good practices** from companies, recyclers and innovation actors, illustrating what works and where obstacles remain.
- Objective of the webinar: **generating practice-based evidence** to support dialogue between market participants and financial institutions and to inform better-tailored financial solutions for the circular transition.
