RFNA Webinar (Lumbar & Genicular nerves)

IVS Instructional course

Faculty:

Dr Sherdil Nath
Pain Specialist
Sweden

Dr Arun Bhaskar
Consultant Pain Management
London (UK)

Delegate profile :

Dr. Sherdil Nath With an International experience in India, UK and Sweden, Dr Nath worked 20 years in Sweden as a consultant anaesthetist, actively participating in teaching and research establishing and developing a pain service. 1997 onwards he worked at a private pain clinic that catered to patients from the whole of Sweden and the neighbouring countries providing a diagnostic and therapeutic service for all types of pain but especially spinally mediated pain of post traumatic, post surgical as well as degenerative origin. Cervical pain and related headaches as well as whiplash were areas of special interest. Dr Nath have taught at workshops/cadaver courses in Sweden, Switzerland, India, UK and many European countries, several times a year between 1983 until now.

Dr Arun Bhaskar, is a leading consultant in Pain medicine in London, who holds a special interest in complex pain. Dr Bhaskar is a renowned expert in cancer pain and management of complex pain problems. Dr. Bhaskar has been involved in clinical trials for pain and in developing novel interventional techniques with several peer-reviewed publications. Dr Bhaskar is on the faculty and examiner for many courses, including the European Pain School and the World Institute of Pain and regularly mentors colleagues nationally and internationally. Dr Bhaskar is the President-elect of the British Pain Society and has served two terms as an elected member of the Council of the British Pain Society and also chairs the Communications Committee. He is also the Honorary Secretary of the Neuromodulation Society of UK and Ireland and the Chairman of the UK Section, World Institute of Pain. He is currently the co-chair of the Committee for the Cancer Pain Management Guidelines. He does also represents UK as Councillor at the European Pain Federation.

Stryker IVS

Webinar

A surgeon must always rely on his or her own professional clinical judgment when deciding whether to use a particular product when treating a particular patient. Stryker does not dispense medical advice and recommends that surgeons be trained in the use of any particular product before using it in surgery. The information presented is intended to demonstrate the breadth of Stryker product offerings.

A surgeon must always refer to the package insert, product label and/or instructions for use before using any Stryker product. Products may not be available in all markets because product availability is subject to the regulatory and/or medical practices in individual markets.

Please contact your Stryker representative if you have questions about the availability of Stryker products in your area.
